CUSTOM MILLWORK

Tech Abrasive Supply Company has many customers in the custom millwork industry. These are some of the most popular products used on their applications.

BW114 Belts –

Recommended for use in the wood & cabinet industries. Tear Resistant & Anti-static. Great for economic mechanical surface sanding of wooden materials, primer, filler and laquer.

Grits Range: 40 - 800

Hermes Abrasives

Premier Red 9"x11" Sheets –

The ultimate choice for machine & hand sanding of bare wood, paints, primers, light metals & paints. Allows for a consistent finish without a deep scratch, an excellent cut rate, superior load resistance & extended life.

Grits Range: 80 - 1200

Carborundum Abrasives

VC 154 Longlife Velour Discs –

A highly flexible wear resistant disc for intermediate & finish sanding on soft or hard woods, automotive primer, aluminum, composite plastic & fiberglass moldings. Adapts great to contours. Semi open structure to reduce clogging. Try mulithole for the cleanest operation.

Available in 5" & 6" Discs

Grit Range: 80 - 1500

Hermes Abrasives

Band Saw Blades –

Available in a variety of widths and lengths. Choose tooth patterns to accomodate the wood, metal, or other composites you may be sawing. Carbide tip blades are also available.

Simonds International

VC 152 9"x 11" Sheets -

Great for use on boat-building, lacquer-processing, furniture and wood industry, painters, cabinet makers, carpenters, and plastics. Good price to performance ratio.

Grits Range: 40, 60-320, 400

Hermes Abrasives

RB316 33 X OP Belts

Recommended for intermediate & finishing sanding on both soft & hard woods and for calibrating of wood. High stock removal rates allow for long belt life. Gives a consistant surface finish for the whole sanding period.

Grit Range: +50-+220

Hermes Abrasives

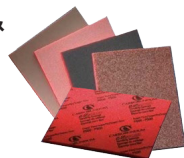

EZ Touch Contour Sponges –

For hand sanding & uniform finishing of wood, metal, fiberglass, composites, plastics, solid surfaces, & primed, stained sealed or painted surfaces. Superior flexibility. Can be used wet or dry. Ideal for flat, curved, contoured & hard-to-reach areas.

Grit Range: Medium - Micro Fine

Carborundum Abrasives

Drill Bits -

High strength steel in a variety of sizes and lengths. Spade bits, counter sinks, plug cutters, and other speciality drills are available.

W.L Fuller

www.techabrasives.com

BW 110 9" x 11" Sheets –

Stable & flexible abrasive paper. Especially suitable for sanding all types of veneer and open & closed-pore hardwoods (solid wood). For economical sanding on all types of wood. Also available in discs, belts, and rolls.

Grit Range: 24, 36-320, 400

Hermes Abrasives

Medalist Ceramic Grip On Discs –

Best choice for stripping and preparing primed and painted surfaces for finishing; and for the sanding of plastics, fiberglass, composites, bare wood, gel coats and body filler. Tear resistant and durable but flexible.

Available in 3", 5" & 6" discs.

Grit Range: 80-1500

Carborundum Abrasives

Reciprocating & Jig Saw Blades –

A variety of heat treated blades in different lengths, widths and tooth configurations. These blades have shock resistant teeth, greater wear resistance and rigidity which provide long life. Available in carbon steel & bi-metal construction.

W.L. Fuller

Drill Tips –

Offering hardened, well fitting drill tips in a variety of tip configurations, and shaft lengths. High torque models also available for today's impact drivers.

W.L. Fuller

BS 118 Discs -

A velour backed silicone carbide disc that is great for applications that require pressure that might cause a lighter weight disc to tear. Has a very fine surface pattern. Excellent for hardwoods as well as stone, marble, concrete, lacquers or glass edge sanding.

Grit Range: 16, 24, 36-120, 180-220, 320, 400, 600-1200

Hermes Abrasives

Sanding Sponges-

For fine sanding of wood in preparation for staining & lacquering, intermediate sanding of primers & lacquers, & fine cleaning of oxide layers for metallic surfaces. Great for slightly shaped workpieces and mitres. Low flexibility. Can be used wet or dry.

Grit Range: 36, 60, 100, 180-220

Hermes Abrasives

We have many options available to you. If these don't suit your needs let us know what you are looking for and we will find the best options for your business.

Call or E-Mail us for pricing, quotes or information. Samples may be available upon request.
